

Sprint Backlog, Iteration # 2

User Story	Task	Member responsible for the task	Task Assigned To	Estimated Effort per Task (in hours)	Priority (A—E) (A is highest)
As a developer I want to have a well tested code base with good documentation and free of bugs.	Integration tests	Jasper	Jasper & Ashay	4	C
	Unit tests	Luat	Naqib & Luat	3	A
	Removing Bugs(PMD & Findbugs)	Ymte	Ymte	2	B
	Documenting Code	Ashay	Ashay	5	A
As a user I want to be able to install and run the web-of-trust application on my android device(s). The application should have a simple and usable interface.	Implementation	Ymte	Ymte	3	A
	Tests	Naqib	Luat & Naqib	4	B
As a user I want my application to (automatically) update my web-of-trust contact list information automatically (by updating the blockchain).	Implementation	Jasper	Jasper & Ymte	10	E
	Test	Luat	Naqib & Luat	14	E
As a user I want to be able to remove the contact from my list, blockchain will thus add another block that will acknowledge that decision.	Implementation	Naqib	Naqib & Ymte	4	C
	Test	Luat	Luat & Ashay	6	D

As a user I want to be able to add the contact to my list, blockchain will thus add a block that will represent that user.	Implementation	Jasper	Jasper	6	B
	Test	Ymte	Ymte	7	C
As a developer I want to make a clear product vision because I need a clear description of the areas in which the stakeholders, such as users and customers, get value.	Reading	Ashay	Ashay & Ymte	2	A
	Writing	Ashay	Ashay & Ymte	4	A
As a developer I want to make a clear Product Planning because a product-level planning is needed to capture the essence of a potential product.	Reading	Luat & Naqib	Luat & Naqib	2	A
	Writing	Luat & Naqib	Luat & Naqib	5	A
As a developer I want to design a prototype of proof of concept for the architecture design with the main idea: the client keys are stored securely in the blockchain. (Architecture design)	Reading	Jasper	Jasper	2	A
	Writing	Jasper	Jasper	11	A

Context Project: Blockchain Trust
Group: BullsBearsWolves
